INTERNSHIP REPORT

ON

DATA ANALYTICS INTERNSHIP

Submitted To

School of Computer Science and Engineering

IILM University, Greater Noida, U.P.

In partial fulfilment of the requirement of degree of

B.Tech CSE

By

AMAN KUAMR

Roll Number: CS-2341364

Batch: 2026-27

Laxmi Enterprises

Data Analyst Intern | Data Analytics Department

CANDIDATE'S DECLARATION

I, Aman Kumar, hereby declare that the internship report titled "Data Analytics Internship at Laxmi Enterprises" has been prepared by me to fulfil the requirement for the award of the degree of Bachelor of Technology in Computer Science and Engineering. The report is prepared with reference to the internship offer letter issued by Laxmi Enterprises. I confirm that the work presented in this report is intended to describe the internship role, responsibilities, workflow, and learning areas stated in the available records. Where actual project results, datasets, or company-specific analyses are not available in the supplied documents, no numerical results have been fabricated.

I further declare that this report has not been submitted to any other institute for any degree or diploma requirement and that I shall be responsible for any copyright or originality issues related to the material presented in this report.

Student Name: AMAN KUAMR

Roll No.: CS-2341364

ACKNOWLEDGEMENT

I would like to express my sincere gratitude to everyone who supported me during my internship at Laxmi Enterprises. I am thankful to the management and project supervisor for providing me with the opportunity to work as a Data Analyst Intern and to understand how data can support business activities and decision-making.

I am also grateful to my university, IILM University, Greater Noida, and the School of Computer Science and Engineering for providing the academic foundation that helped me understand data analytics concepts. I would also like to thank my teachers, family, and everyone who encouraged me during this learning period.

Student Name: AMAN KUMAR

Roll No.: CS-2341364

INTERNSHIP COMPLETION CERTIFICATE

The internship completion certificate issued by Laxmi Enterprises should be attached on this page after completion and verification by the organization. The supplied documents include the internship offer letter and acceptance, but they do not include a completion certificate.

1. PROJECT DESCRIPTION

1.1 Introduction

The internship was offered for the position of Data Analyst Intern in the Data Analytics Department of Laxmi Enterprises. According to the offer letter, the role focuses on collecting, organizing, and analyzing business data; identifying trends and patterns; supporting data-driven decision-making; maintaining data accuracy; preparing analytical reports; and working with spreadsheets, databases, and analytical tools.

The main purpose of the internship report is to present these responsibilities in a clear and structured manner. The work can be understood as a business data analysis workflow in which raw or existing business information is organized, checked for quality, analyzed, and converted into useful reports or insights for management.

1.2 Organization Profile

Laxmi Enterprises is the organization named in the internship offer letter. The letter provides the following official contact and organization details: Laxmi Enterprises, 1A, AG Colony Road, Old A G Colony, Kadru, Delatoli, Ranchi, Jharkhand – 834002, India. The offer letter is dated 07 June 2026 and is signed by Ravi Kumar, Proprietor.

The internship role is positioned within the Data Analytics Department and reports to the Proprietor / Project Supervisor. The available offer letter does not provide a detailed history, product portfolio, organizational chart, or financial profile of the company; therefore, such information has not been added to this report.

Particular	Details
Organization	Laxmi Enterprises
Designation	Data Analyst Intern
Department	Data Analytics
Reporting To	Proprietor / Project Supervisor
Internship Start Date	09 June 2026
Internship End Date	08 August 2026
Work Mode	Remote / On-site (as applicable)
Monthly Stipend	₹10,000

Total Stipend	₹20,000

1.3 Problem Statement

Businesses generate information through daily operations, records, spreadsheets, and other sources. When such information is not organized and analyzed properly, it can be difficult to identify useful trends, patterns, or areas that require attention. The internship role addresses this need by supporting the collection, organization, validation, analysis, and reporting of business data.

The problem can therefore be stated as: how can business data be converted into accurate, clear, and useful information that supports management and day-to-day business decisions?

1.4 Project Objectives

1. Collect and organize business data in a structured form.
2. Analyze available datasets to identify trends and patterns.
3. Maintain data accuracy and integrity before analysis and reporting.
4. Prepare analytical reports that communicate findings clearly.
5. Support management with data-driven information for decision-making.
6. Develop practical understanding of spreadsheets, databases, and analytical tools.

1.5 Scope of the Project

The scope of the internship work, based on the supplied offer letter, includes:

- Business data collection and organization.
- Data checking and maintenance of accuracy and integrity.
- Trend and pattern identification from datasets.
- Analytical reporting for business operations.
- Use of spreadsheets, databases, and analytical tools.
- Providing analytical support to management.

The supplied documents do not specify a particular business dataset, software package, dashboard, model, or final analytical result. Those details should be added to

the final version only from actual internship records, project files, screenshots, or completion evidence.

1.6 Technologies and Tools Used

The offer letter specifically mentions spreadsheets, databases, and analytical tools. Because it does not name specific software, the report records the tools at this level rather than claiming use of a particular application.

Tool / Category	Purpose	Evidence in supplied record
Spreadsheets	Organizing and working with business data	Explicitly mentioned in offer letter
Databases	Working with stored business information	Explicitly mentioned in offer letter
Analytical tools	Analyzing data and preparing insights	Explicitly mentioned in offer letter

1.7 System Architecture

A simple architecture for the Data Analyst Intern role can be represented as a flow from business data to organized information, analysis, reporting, and decision support. This figure is a conceptual representation derived from the responsibilities listed in the offer letter; it is not a claim about a specific internal software architecture.

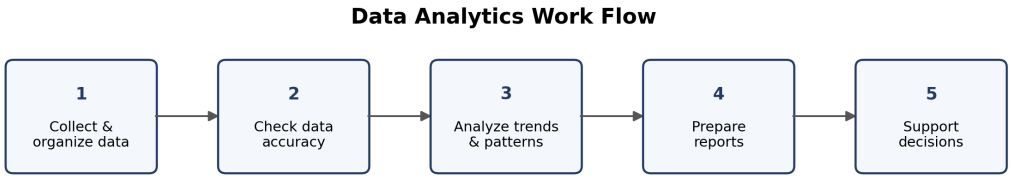

Figure 1.1: Conceptual data analytics workflow for the internship role.

1.8 Methodology

The internship methodology can be organized into five simple stages. The stages follow the responsibilities stated in the offer letter and provide a practical structure for performing business data analysis.

Stage	Description
Stage 1 – Data Collection	Gather relevant business data from available records and sources.

Stage 2 – Data Organization and Validation	Arrange the data in a usable structure and check accuracy and integrity.
Stage 3 – Data Analysis	Study the data to identify trends, patterns, and useful business information.
Stage 4 – Analytical Reporting	Present findings in clear reports that can be understood by management.
Stage 5 – Decision Support	Use the reported findings to assist data-driven business decisions.

1.9 Expected Outcomes and Learning

Based on the responsibilities stated in the offer letter, the internship is intended to develop practical understanding of business data analysis. The expected learning areas include:

- Understanding how business data is collected and organized.
- Learning why data accuracy and integrity are important for reliable analysis.
- Practising identification of trends and patterns in datasets.
- Improving the ability to communicate analytical findings through reports.
- Understanding how data can support management decisions.
- Gaining practical exposure to spreadsheets, databases, and analytical tools.
- Developing professional responsibility, confidentiality, and task discipline.

1.10 Internship Terms and Professional Responsibilities

The offer letter states that the internship is for three months and lists the start date as 09 June 2026 and the end date as 08 August 2026. These dates are reproduced exactly as stated in the offer letter. The letter also states a monthly stipend of ₹10,000 and a total stipend of ₹20,000, subject to satisfactory performance and completion of assigned tasks.

The internship terms require confidentiality regarding company data, records, and business information. Any reports, analyses, dashboards, or intellectual property developed during the internship are stated to remain the property of Laxmi Enterprises. The offer letter also mentions that the internship may be terminated for misconduct, breach of confidentiality, or unsatisfactory performance.

1.11 Internship Timeline

The timeline below uses the start and end dates written in the offer letter. The offer letter describes the internship duration as three months, while the listed calendar dates cover the period from 09 June 2026 to 08 August 2026; this report preserves the wording and dates without attempting to reinterpret them.

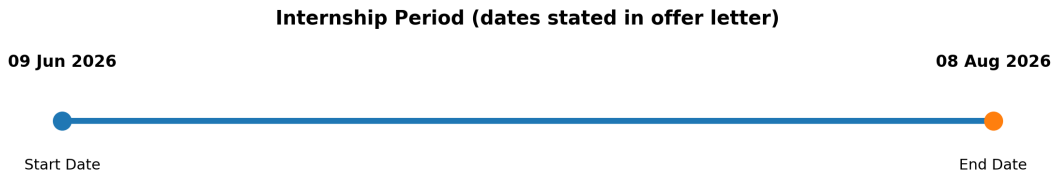

Figure 1.2: Internship dates as stated in the offer letter.

1.12 Certificates and Communication Proof

The university format requires the certificate of completion and other communication proof to be attached. The supplied files contain the Laxmi Enterprises Internship Offer Letter dated 07 June 2026 and its acceptance by AMAN KUMAR, dated 07 June 2026. A completion certificate was not included in the supplied documents.

Documents to attach in the final report:

- Internship completion certificate issued by Laxmi Enterprises.
- Relevant communication or confirmation emails, if required by the university.
- Selected project screenshots, reports, dashboards, or other work proof, if permitted by the company.
